Dear User,

Thank you for bringing the websites 99usdt.cc and Jaguar Mining to our attention. We sincerely apologize that these sites were listed on our TTEarnCrypto Directory. We appreciate you taking the time to report this to us, as it helps us maintain the integrity of our platform and protect our users.

We have already taken immediate action and removed 99usdt.cc from our directory. We are also in the process of reviewing Jaguar Mining. To assist us in this review and ensure its prompt removal, we kindly request that you share any evidence you have supporting your claim that Jaguar Mining is a scam. This could include screenshots, links to other reports, or any personal experiences you or others have had. This information will be invaluable in our investigation.

We want to emphasize that our TTEarnCrypto Directory is a commercial directory, meaning listings are sometimes paid placements. While we strive to review all submissions, we cannot guarantee the legitimacy of every listed project. Therefore, we always strongly advise our users to conduct their own thorough research and due diligence before investing in any platform or project, including those listed on our directory. Never invest more than you can afford to lose.

We value your feedback and appreciate your vigilance in helping us identify and remove potentially harmful sites. We are committed to providing a safe and reliable resource for our users, and your report plays a critical role in this effort.

Thank you again for your contribution.

Sincerely,

The F9XR Team
